Summary

Detail-oriented, hard-working, and problem-solving professional offering 8+ years of customer service and conflict resolution experience, including over a year of IT. Proven ability to manage multiple projects with conflicting and challenging deadlines.

Skills

- Debugging, JavaScript, Python, Node.js, React, React Native, Express, Redux, RESTful API, PostgreSQL, Sequelize, Bootstrap, HTML, CSS
- Adobe Creative Suite, Statistical software, Coding data, CRM, Conflict resolution, Customer Service

Software Development Portfolio

Old Wall Site | <https://github.com/abbeyperini/OldWallSite> | Sep 2020

- Given code from an XML1 site from the 90's, I started by copying the design as exactly as possible in HTML5 and CSS. Using CSS flexbox and grid, I designed responsive layouts for mobile and tablet. I wanted to keep all the assets original, but had to replace the main background image for the tablet and desktop views.

Knitworthy | <http://knitworthy.net/> | <https://github.com/abbeyperini/Knitworthy> | Oct 2020

- Knitworthy produces "fun facts" that compare [Ravelry](#) API project time and yarn data to real life time and length measurements. It was built by a 4-person team with HTML, CSS, Javascript, Bootstrap, Surge. I found the correct API endpoints, wrote the main functionality for the "fun facts" in Javascript, designed the logo and theme, and wrote a lot of the CSS, including the "Filters" drop down menu.

Professional Experience

Randstad Engineering

Talent Services Manager | Nov 2015 - Aug 2020
